

A dark blue silhouette of a man in a suit and tie, holding a presentation board. The board features a large white pi (π) symbol and a pie chart icon. The text "No slide is the first; none the last." is overlaid in white.

No slide is the first;
none the last.

Hello, my name is Vlad Bugaev, I am an expert in presentations with a background in finance and advertising. I turn your big ideas into simple slides and I really love the process.

I have been creating presentations for over 10 years, from structure to text to design. I also create comprehensive PowerPoint templates.

12 years 450 projects

& SONS

How work is done

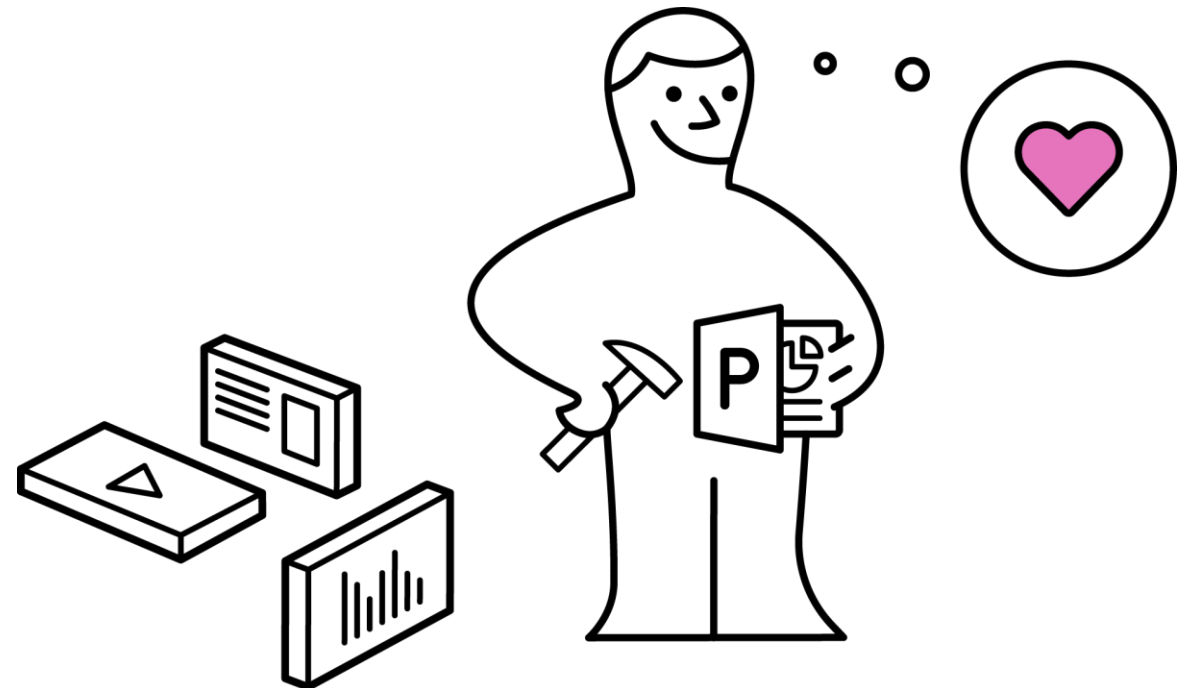

You fill in the brief.

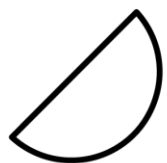

I do a rough structure and design concept,
to see if we're on the right track.

Once everything is fine, I do the rest of the project.

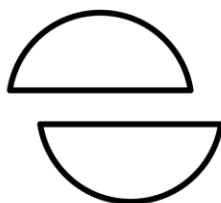

We do accessibility and compatibility tests
to be sure of the contrast, fonts, etc.

Deliver and repeat.

Brief

Structure

Design

Test

Deliver

It's all PowerPoint

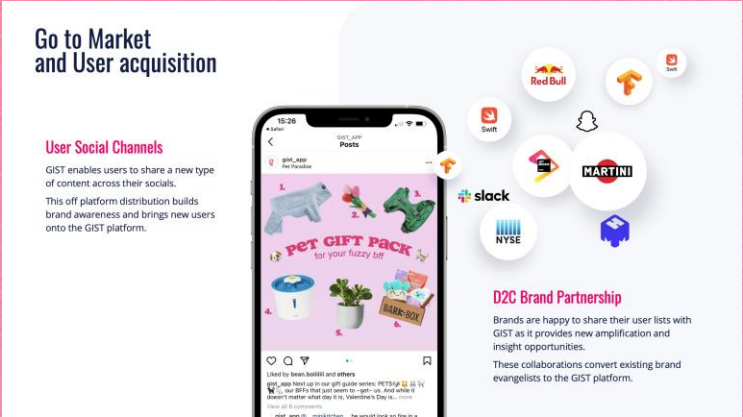

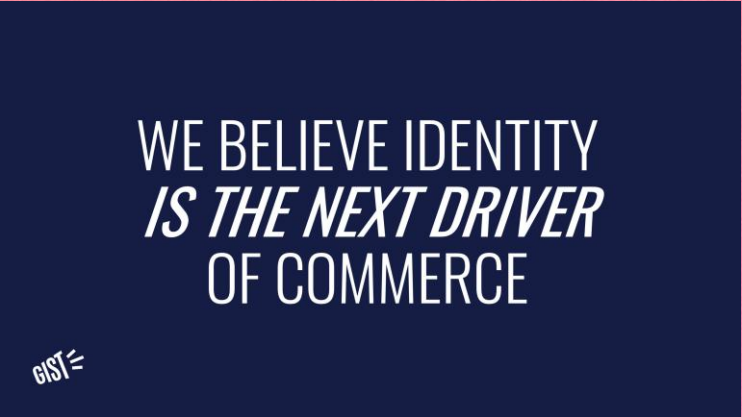

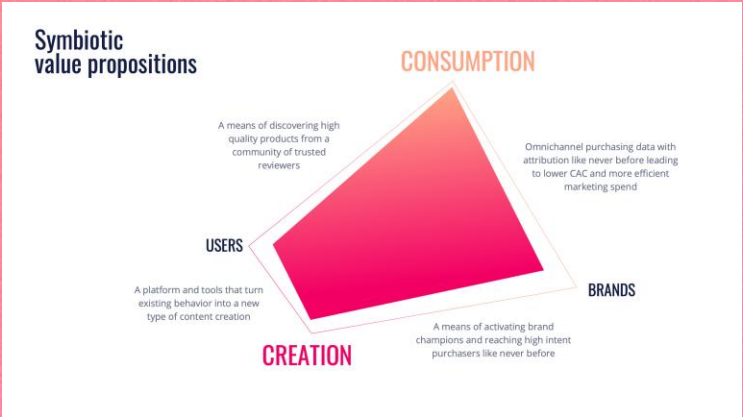

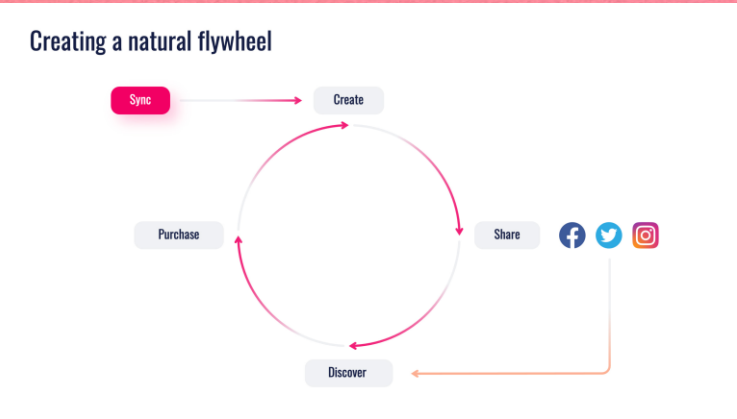

In my work I use Adobe CC, Figma,
all sorts of different services and AI.

But the result, including animations,
are editable files in *.pptx format.

Circe Biotech Pitch Deck

SUPPLYING THE FUTURE

Innovative tech
in production of liquified
natural gas

CIRCE®

Business branches

Protein: feed & food

Modern feed base

The cost of the end products reduction
Improving the quality of the end product

An effective response to the challenge of food supplies to a rapidly growing population

Methanol

Low power plants for methanol synthesis

Simplify solutions for the oil and gas industry

Reduced air emissions and environmental burden

Liquefied natural gas

Modern fuel

Improving gas processing efficiency

Reduction in pipeline construction costs

Biodegradable polymers

Environmental friendliness and contribution to the future of the planet

Modern materials for the production of the end products

CIRCE®

About company

Our team

Line of business

Contact information

CIRCE®

Circe – a group of companies that develops solutions for the efficient use of methane.

Our companies conduct a full cycle from R&D to production.

Goal: annually process

50 billion m³

of gas into useful products by 2025

CIRCE®

Roadmap

Present

DEC 2020 Agreement with TU Wien
Cooperation agreement with Technical University of Vienna

DEC 2020 Start of Biodegradable polymers line
Conduction of research activities

DEC 2020 Agreement with SFAR
Beginning of joint work with the State Fund for Advanced Research

JAN 2021 Skolkovo resident
Resident of Skolkovo Science and Technology Center

JAN 2021 Pilot batch of Bioprotein
Production of a pilot batch of Bioprotein

JUN 2021 Test production
Test production of Vorlex tubes

AUG 2021 Methanol 2.0
Creation of methanol reactor 2.0

CIRCE®

Future

Q2 2022 Pilot batch of biodegradable polymers

Q2 2022 Pilot batch of food protein

Q3 2022 Commercial batch of feed protein

Q2 2023 Commercial batch of food protein

CIRCE®

Core values

Contemporary technologies

Investment in the future

Environmental friendly

Reliable development

Closed loop products

PowerPoint Templates

Full utilisation of PowerPoint's Slide Master features

Reliable, consistent template performance—thoroughly tested across all major operating systems to address every PowerPoint quirk

Well-considered typographic hierarchy to save you time and effort

Custom placeholders for charts and images

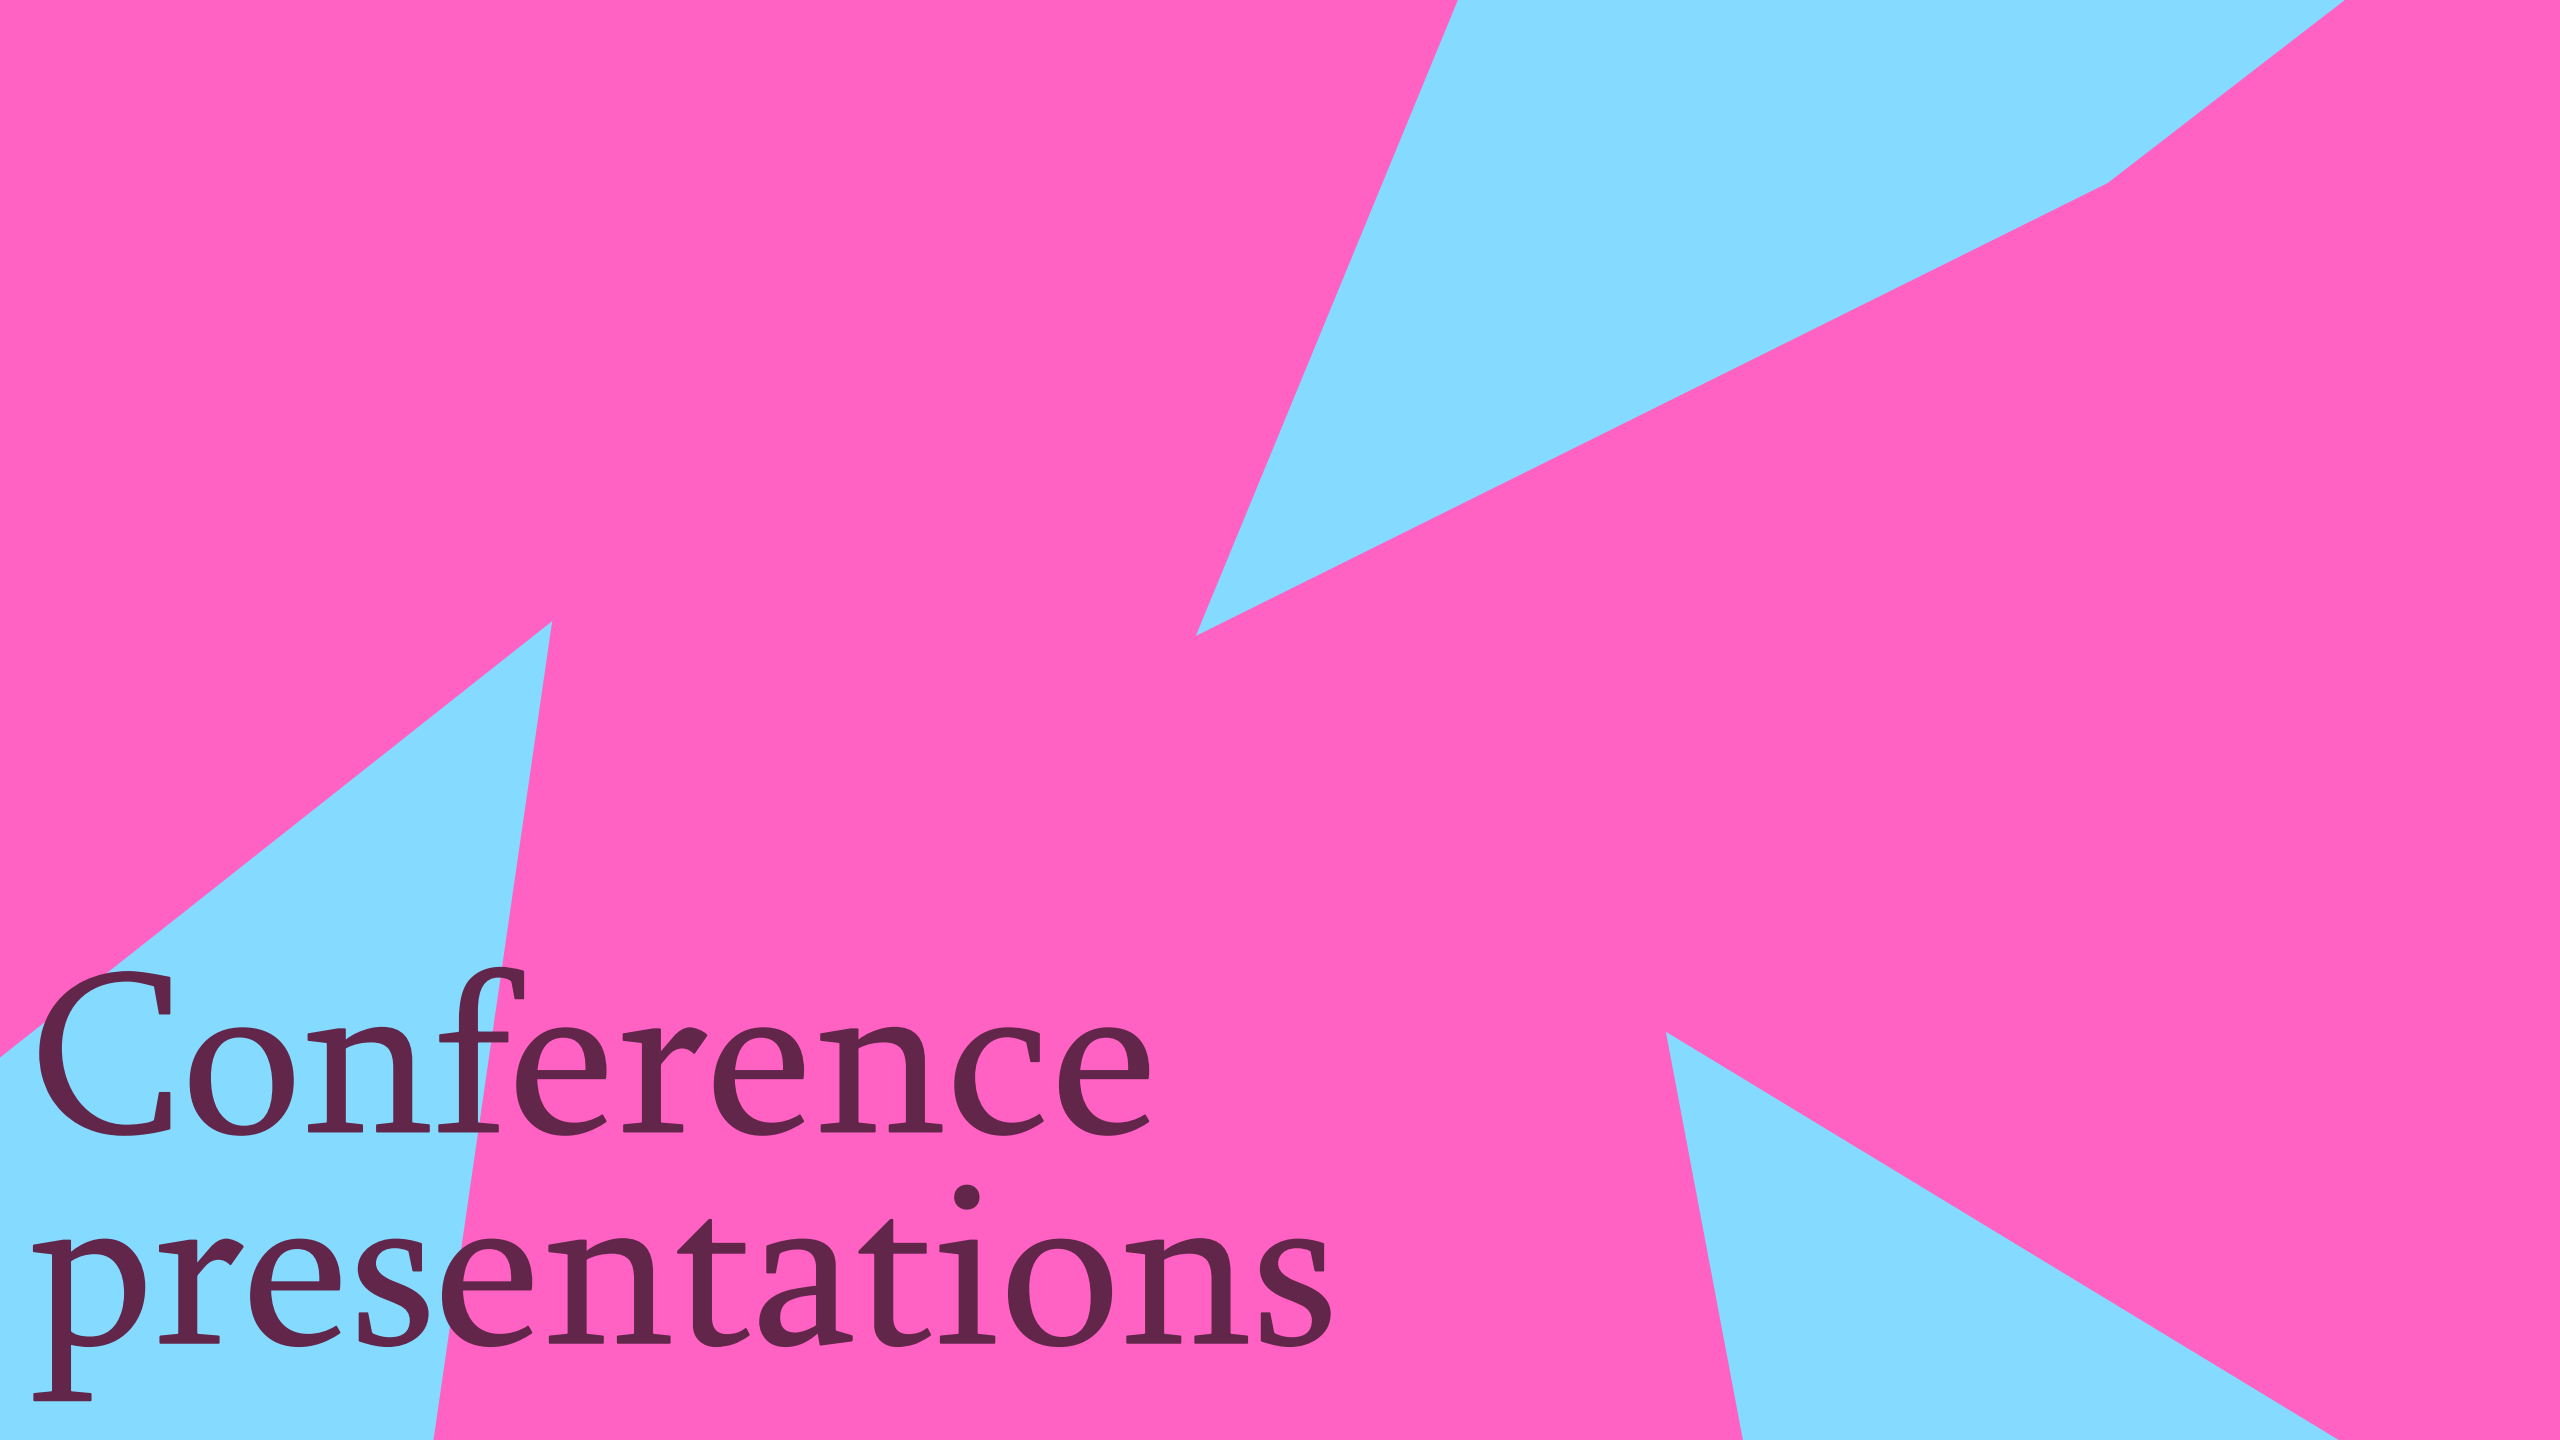

XML tweaks for bespoke table and text-box styles

Sleek, modern built-in animations and transitions

Raiffeisen CIB Super Mega PowerPoint Template

This template features
over 230 layouts and
custom table styles

DCAPM+ Concept and Development Phases Deck

Our advantages and differentiators

A product for database control and protection

A universal platform for controlling and protecting application assets

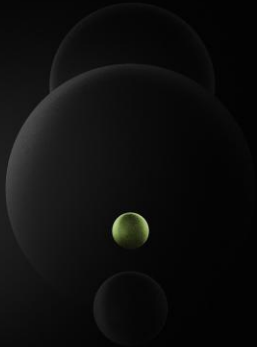

Technological partnership with DCAP Spectrum

© 2024 I-COM SOLUTIONS LLC

Target markets

- Diasoft clients
- Current and prospective clients of Garda DB
- Clients of 1C, 5BIS, PARUS, Kontur, Elba and other accounting systems
- Clients of Bitrix24, 1C: CRM, Megaplan, AmoCRM, MoySklad and other CRM systems
- Clients of 1C, PARUS, Galaktika, SAP, Oracle, Avapta and other ERP systems
- Clients of other systems for which additional modules and connectors may be developed

Implementing fundamental principles of modern cybersecurity

Least Privileges
The principle of granting users only the minimum privileges necessary to perform their work tasks.

Data-Centric Security
Protection of sliced data, including its discovery and categorisation, and the construction of behavioural models.

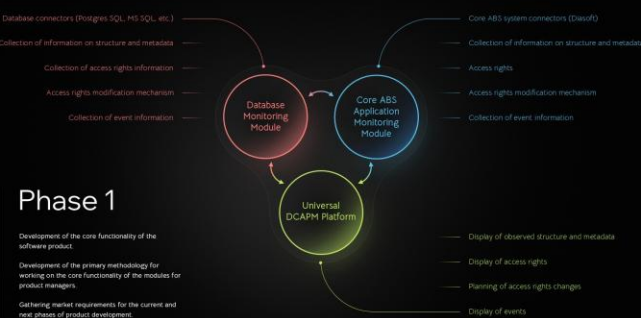

Zero Trust
Dynamic reassessment of user or device access rights each time they request access to any resource.

People-Centric Security
Proactive detection of violations, enhancement of individual accountability among staff, and transparent activity auditing and control.

Phase 1

Development of the core functionality of the software product.
Development of the primary methodology for working on the core functionality of the modules for product managers.
Gathering market requirements for the current and next phases of product development.

MV Agusta Sales Deck

COMBINING BEST

A minimalist e-bike combining best of both worlds, featuring classical detailing and frame that is ideal for urban setting. It also comes with a powerful engine that strikes a perfect balance between performance and efficiency.

OF BOTH WORLDS

MV Urban is assembled from the best parts available on the market which are normally used for bikes that are many times more expensive. This makes this bike extremely durable, reliable and smooth to ride.

MV RAPIDO 500

RRP: €800

Powerful engine
500W

Battery life
Up to 40 km range

Light and Sturdy
Light but strong magnesium alloy frame - 17kg

App Controlled

As fast as they get
25 km/h max speed
Unlockable boost option up to 35 km/h

Perfect for cities
18 degrees climbing angle

Advanced dashboard controls
4" LCD Display + Cruise control

Dual Hydraulic Disc Brakes

ART OF MOBILITY

ABOUT US: PREMIUM PRODUCTS

Our Motorcycles are second to none in engineering, design and aesthetics. They are exclusive and premium products for the most sophisticated and passionate motorcycle fans.

© 2021 MV AGUSTA Motor S.p.A.

Key objectives and goals of MV Agusta Mobility

Ensure smooth transition from the motorcycling only to motorcycling and electrical mobility

Preserve brand messaging and philosophy

Diversify MV Agusta to further reassure its place in the future of two-wheel mobility

Capture opportunities in the urban mobility space that arise as the result of urbanization and a shift in how people perceive personal mobility

on Behance

The background is an abstract composition of several translucent, geometric planes in various shades of teal and dark blue. These planes intersect at sharp angles, creating a sense of depth and three-dimensional space. The lighting is soft, highlighting the edges and surfaces of the planes. In the lower-left corner, the text "Few more things..." is written in a white, serif font.

Few more
things...

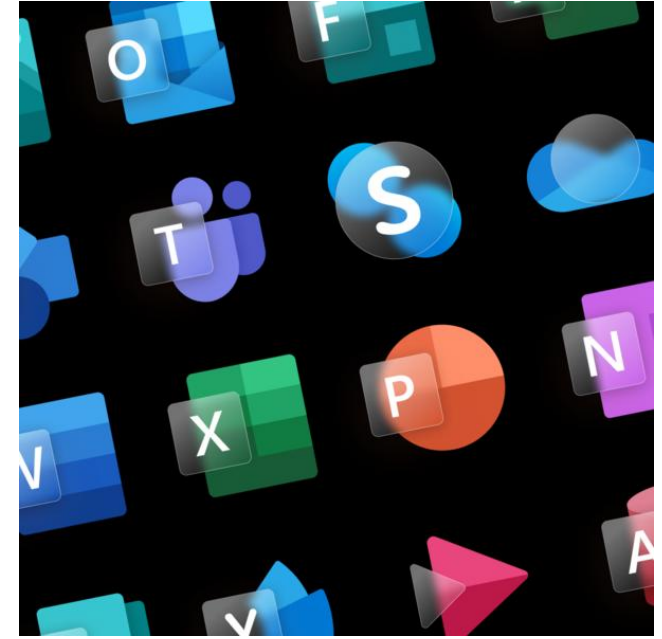

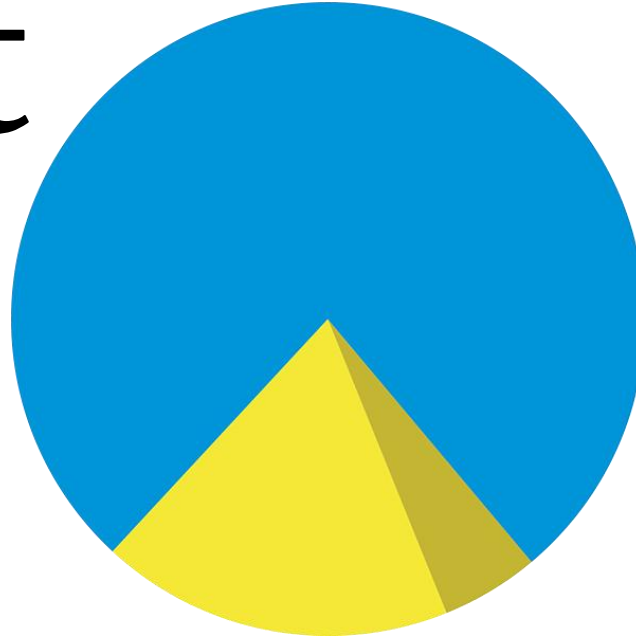

From rhombus to circle: the history of PowerPoint icon

My research into the evolution of the PowerPoint icon. Observing its changes, you notice how technology has evolved and what was relevant in graphic design over the years.

PowerPoint goodies corner

I create a variety of presentation-related resources—some practical, others purely for fun.

Examples include a PowerPoint theme colour tester, the Jobs-Cook slide test, searchable administrative maps of countries around the world, [and more](#).
